| 54162 | 1.0 | | | | | Environmental Consulting | The provision of objective information, advice, and guidance to clients concerning the preservation of air, water, and soil quality; natural resource development; waste management; pollution control; and other environmental issues. This service may involve the sale or transfer of technology to a client, and often extends to assisting the client to organize and monitor the implementation of solutions. Services that involve stand-alone implementation are classified to an operational area such as engineering, remediation, construction, or project management. | X | X | X | 54162 | 541620 | 54162 | 83131 |
| 54162 | 1.1 | | | | | Environmental Assessments | Objective studies undertaken for any one or more of the following purposes: identify whether or not environmental contamination exists at a particular site, and if so, determine the source, nature, and extent of the contamination; assess the risk to public health and safety from environmental contamination associated with a project that is proposed or in place; evaluate the impact on the ecology, society, or economy of environmental contamination resulting from human or natural activity. | X | X | X | 54162 | 541620 | 54162 | 83131 |
| 54162 | 1.1.1 | X | | | | Environmental Assessments, Integrated | Objective studies undertaken for any one or more of the following purposes: identify whether or not contamination of two or more environmental media (air, water, soil, noise) exists at a particular site, and if so, determine the source, nature, and extent of the contamination; assess the risk to public health and safety from the contamination of two or more environmental media associated with a project that is proposed or in place; evaluate the impact on the ecology, society, or economy of contamination of two or more environmental media resulting from human or natural activity. | X | X | X | 54162 | 541620 | 54162 | 83131 |
| 54162 | 1.1.1.1 | | | X | | Site Assessments, Integrated | An objective study undertaken in order to identify the existence of contamination to two or more media (air, water, soil, noise) on a site. If the area is found to be contaminated, a review of the source, nature, and extent of the contamination is performed. | X | X | X | 54162 | 541620 | 54162 | 83131 |
| 54162 | 1.1.1.2 | | | X | | Risk Assessments, Integrated | A detailed quantitative and/or qualitative evaluation of the potential for harm to result from an actual or proposed activity at a site, such as processes or equipment in use, spills, fires, explosions in facilities, flights, or as a result of a natural phenomenon. Often includes computer modeling services. Assessments classified in this group are performed to evaluate the risk for two or more media (air, water, soil, noise). | X | X | X | 54162 | 541620 | 54162 | 83131 |
